

## List of Publications 2000

- Blight G., Wolski W., Troncoso J., Sego D. Geotechnics of Mining Wastes and Tailings. Proceedings of GeoEng 2000, An International Conference on Geotechnical and Geological Engineering. Melbourne. Technomic Publ. Comp. Inc. 2000. Vol. I, 1253-1285
- Falkowski T. Deformation structures in the escarpment zones of the polygenic valleys from Polish Lowland and their influence of the circulation of the ground water Annals of Warsaw Agricultural University, Land Reclamation. 2000. No 30
- Falkowski T., Popek Z. Zones of the ice jam formation on the Middle Vistula River Reach in relation to the variable of the river valley morphology. Annals of Warsaw Agricultural University, Land Reclamation. 2000. No 30
- Garbulewski K., Wolski W. Influence of soil compaction on shrinkage and collapsing behaviour. Annals of Warsaw Agricultural University, Land Reclamation . 2000. No 29
- Koda E. Design aspects of leachate drainage systems of old sanitary landfills. Annals of Warsaw Agricultural University, Land Reclamation 2000. No 29
- Koda E. Design aspects of leachate drainage systems of old sanitary landfills. Annals of Warsaw Agricultural University, Land Reclamation 2000. No 29
- Koda E. Durability of leachate drainage systems of old sanitary landfills. Proceedings of the. Third International Conference Geofilters 2000. Balkema. 2000, 215-222
- Koda E. Stability analysis of high slope of old sanitary landfill. Annals of Warsaw Agricultural University, Land Reclamation. 2000. No 29
- Koda E., Foltyn P. Fields tests of mechanical properties of municipal solid wastes. Physical Modelling and Testing in Environmental Geotechnics, NECER&LCPC Biuletyn, La Baule. 2000, 121-132
- Król P. Necessite de l'installation des drainages dans les diques insubmersibles. Proceedings of the Third International Conference Geofilters 2000. Balkema. 2000. 313-318
- Król P., Bąkowski J. Evaluation of bearing capacity of croced rocky subsoil based on complex analysis of geophysical and laboratory shear tests. Annals of Warsaw Agricultural University, Land Reclamation . 2000. No 29
- Lechowicz Z., Rabarijoely S. Dilatometer C-reading to help determine stratigraphy of organic subsoil. Annals of Warsaw Agricultural University, Land Reclamation. 2000. No 29
- Lechowicz Z., Rabarijoely S. Numerical analysis of organic soil behaviour during dilatometer test. Annals of Warsaw Agricultural University, Land Reclamation. 2000. No 29
- Lipiński M.  $G_{max}$  as and indicator of undrained response of sand to cyclic loading. Annals of Warsaw Agricultural University, Land Reclamation. 2000. No 29
- Lipiński M. Influence of freeze/thaw cycle on undrained cyclic behaviour of sand. Annals of Warsaw Agricultural University, Land Reclamation. 2000. No 29
- Lipiński M. Shear wave velocity for evaluation of state of cohesionless soils. Annals of Warsaw Agricultural University, Land Reclamation. 2000. No 29
- Lipiński M., Gołębiewska A. A study of granulation distribution in a beach of tailings dam. Waste'00 Conf. Colorado, USA. Balkema. 2000. 159-168

Mirecki J., Wolski W. Use of geosynthetics in the drainage system of the Domaniów reservoir. Proceedings of the Third International Conference Geofilters 2000, Balkema. 2000, 325-330

Osenbruch K., Weise S.M., Pajnowska H., Grabczak J. Age and recharge pattern of water in the oligocene of the Mazowian basin (Poland) as indicated by environmental tracers Journal of Hydrology. 2000. 233

Pisarczyk S., Chaciński Z., Garbulewski K., Żakowicz S., Steckiewicz R. New piezovane for in situ shear strength testing of soft soils. Proceedings of the IX Baltic Geotechnical Conference. Tallin. Balkema. 2000. 19-24

Skutnik Z. Evaluation of geotechnical parameters and stress states of the clay core during construction. Annals of Warsaw Agricultural University, Land Reclamation. 2000. No 29

Szymański A. Determination of stress history in cohesive soils on the basis of in situ tests. Proceedings of the IX Baltic Geotechnical Conference. Estonia.

Szymański A. The assessment of overconsolidation ratio in glacial soils on the basis of cone penetration tests. Annals of Warsaw Agricultural University, Land Reclamation. 2000. No 29

Wolski W., Lipiński M., Fürstenberg A., Barański T. Influence of internal erosion on safety of old dams. Proceedings of the Third International Conference Geofilters 2000, Balkema. 2000. 357-36
