

## List of Publications 2001

Batory J., Koda E. Geotechnical in situ tests in technical condition assessment of lateral dams of Dębe reservoir. *Annals of Warsaw Agricultural University – Land Reclamation* 2001, No 32

Gołębiewska A. Evaluation of representative batches of tailings for laboratory tests. *Annals of Warsaw Agricultural University – Land Reclamation* 2001, No 32

Golimowski J., Koda E. Assessment of remedial works effectiveness on water quality in the vicinity of Łubna landfill. *Annals of Warsaw Agricultural University – Land Reclamation* 2001, No 32

Koda E., Pachuta K. Possibility of sanitary landfill rehabilitation with the use of self-growing plants. *Annals of Warsaw Agricultural University – Land Reclamation* 2001, No 32

Król P., Krzywosz Z. Le vieillissement hydraulique des géotextiles pendant sept ans d'exploitation dans le drainage des barrages en terre. *Annals of Warsaw Agricultural University – Land Reclamation* 2001, No 32

Krzywosz Z., Wojtasik D. Methodology of Testing the Permeability Normal to the Plane of Non-woven Geotextiles. *Annals of Warsaw Agricultural University – Land Reclamation*, 2001, No 31, 57-64

Lechowicz Z., Bąkowski J. Stability evaluation of staged embankment on organic subsoil using elasto-plastic FE analysis. *Annals of Warsaw Agricultural University – Land Reclamation* 2001, No 32

Lechowicz Z., Osiński A., Rabarijoely S. Analysis the behavior of stabilized cohesive soils as pavement structure. *Annals of Warsaw Agricultural University – Land Reclamation* 2001, No 32

Lechowicz Z., Szymański A. Evaluation of undrained shear strength of cohesive and organic soils from in situ test. A.A.Balkema. *Soil Mechanics and Geotechnical Engineering*. Istanbul, 2001, vol.I, 445-448

Lipiński M. In shear velocity capable to detect state of soils containing fine. *Annals of Warsaw Agricultural University – Land Reclamation* 2001, No 32

Lipiński M. Shear wave velocity based hybrid method for evaluation of tailings state. *Annals of Warsaw Agricultural University – Land Reclamation* 2001, No 32

Lipiński M., Wolski W. Onset conditions of liquefaction. A.A.Balkema. *Soil Mechanics and Geotechnical Engineering*. Istanbul, 2001, vol.I, 187-190

Matusiewicz W. Model Testing of Free Discharge Head in vertical Drainage Systems *Annals of Warsaw Agricultural University – Land Reclamation*, No 31, 49-55

Szymański A. Evaluation of uncertainty of cone penetration test result. *Annals of Warsaw Agricultural University – Land Reclamation* 2001, No 32

Szymański A., Sas W. Analysis of consolidation performance in organic soils. *Annals of Warsaw Agricultural University – Land Reclamation* 2001 No 32

Wienclaw E., Ziembikiewicz M. Assessment of the Time of Transport of Pollutants through the Poorly Permeable Layer. *Annals of Warsaw Agricultural University – Land Reclamation* 2001, No 31, s.33-40

Złotoszewska-Niedziałek H. Conditions of Pollution Migration in the Vicinity of Municipal Waste Landfill in View of Model Research. Annals of Warsaw Agricultural University – Land Reclamation, 2001, No 31, 41-48
