

List of Publications 2006

- Falkowski T. Alluvial substratum influence on the main stream (thalweg) orientation and the stability of regulation structures based on the Middle Vistula river reaches, 5th ICEG Environmental Geotechnics, Cardiff. Thomas Telford, Vol. I, pp. 1611-1618.
- Falkowski T. „Geological structure and surface features” in: Inventorying and valuation of nature resources. Field guide pod red. Obidziński A. Żelazo J. Warsaw Agricultural University Press pp. 8-23.
- Falkowski T. Alluvial basement influence on channel processes in urban reaches of the Middle Vistula River. The 10th IAEG Congress, Nottingham 2006.
- Fronczyk J., Garbulewski K., Lech M. Hydraulic, sorption and resistivity characteristics of zeolite-sand mixtures for PRBs. 5th ICEG Environmental Geotechnics, Cardiff. Thomas Telford, June 2006, Vol. I, pp. 140-147.
- Garbulewski K., Lendo M. Skutnik Z. Effect of unloading on the behavior of Warsaw clays. Proc. of the 13th Danube-European Conference on Geotechnical Engineering. Ljubljana, 2006, pp. 45-48.
- Koda E., Głazewski M. Technical and biological reinforcement of rebuilt landfill slopes. Proc. of the 13th Danube-European Conference on Geotechnical Engineering. Ljubljana, 2006, vol. 2, pp. 275-280.
- Koda E., Wienclaw E., Kołanka T. Assessment of remediation efficiency of the old landfill on modeling and monitoring research. 5th ICEG Environmental Geotechnics, Cardiff. Thomas Telford 2006, Vol. I, pp. 197-204.
- Lechowicz Z., Rabarjioely S., Szczypior J. Determination of geotechnical parameters from DMT for stiff overconsolidated clays. 3rd International Seminar “Soil design parameters from in situ and laboratory tests” Studia Geotechnica et Mechanica, 2006.
- Połośki M. The analysis of the reliability of realization costs and investments time-limits in Warsaw, Electronic Journal of Polish Agricultural Universities 9(4), #10.
- Sas W., Malinowska E. Surcharging as a method of road embankment construction on organic soils. The 10th IAEG Congress, Nottingham 2006.
- Skutnik Z., Borowczyk M., Krysiak S. Long term pore water pressure measurements for effective stress evaluation in Warsaw clays. Proc. of the 13th Danube-European Conference on Geotechnical Engineering. Ljubljana, 2006. pp. 113-118.
- Szymański A., Drożdż A., Bajda M. Assessment of stress history in glacial soils on the basis of cone penetration tests. The 10th IAEG Congress, Nottingham 2006.
- Szymański A., Sas W., Drożdż A., Malinowska E. Field and laboratory experience with the soft subsoil improvement. Proceeding of the First Euro Mediterranean Symposium on Advances in Geomaterials and Structure. Hammamet, Tunisia. 2006. Pp. 209-214.
- Szymański A., Sas W., Drożdż A., Malinowska E. The factors determining consolidation performance in prediction of soft subsoil improvement. Proc. of the 13th Danube-European Conference on Geotechnical Engineering. Ljubljana, 2006, pp. 131-136.
- Wolski W., Lipiński M.J. Site characterisation for geotechnical and environmental purposes. Keynote lecture. Proc. of the 13th Danube-European Conference on Geotechnical Engineering Ljubljana 2006, p. 129-150.
